

Arizona OBGYN Affiliates long-time patient Diana Dunaj-Kullman and her two sons, Logan and Luke Fetter.

Twenty-two years after delivering her two sons and helping her through a miscarriage and breast cancer scare, Arizona OBGYN Affiliates (AOA) is still taking good care of patient, Diana Dunaj-Kullman.

Dr. Erickson

“When I started seeing the AOA physicians, they were already known as the premier OBGYN doctors in Phoenix,” Diana says. “I’ve been through a lot with them over the years, and they’ve always provided exceptional professional care.”

AOA branches are Valley-wide. View location & physician details at www.aofamily.com

THE AOA FAMILY TREE IS GROWING RIGHT ALONG WITH YOURS

Arizona OBGYN Affiliates (AOA) is a family of OBGYN physicians that have joined together to care for women – as well as helping them cultivate their own family trees.

As the largest OBGYN practice in the state of Arizona, AOA is dedicated to providing exceptional women’s healthcare through its branch offices and Valley-wide locations. At AOA, women receive state-of-the-art examinations and treatment, thanks to AOA’s experienced physicians, vast resources and the high standards of its organization.

AOA is committed to earning its patients’ trust through respect and understanding. Each branch office is designed to make patients and their families feel welcome, comfortable and even pampered. “We view our patients and their loved ones as members of our AOA family. We see it as our responsibility to make each visit as enjoyable as possible,” said Dr. Nancy Harris.

What’s more, AOA physicians truly understand that a trip to the OBGYN isn’t something that most women look forward to. That’s why they’re committed to delivering extraordinary courtesy and compassion each and every time a woman

walks through their door. “It’s not enough to just be a good doctor anymore,” said Dr. Laurie Erickson. “We listen to our patients and take an active role in understanding their feelings and concerns, as well as their hopes and their dreams.”

Each branch operates independently but is part of a single larger family. This unique medical model has established AOA as a respected authority in Arizona healthcare. This allows its physicians to focus on what they do best – meet the highest level of clinical, technical and ethical standards in women’s healthcare.
